0015

**STATE OF UTAH**  
**BOARD OF OIL, GAS AND MINING**  
Affiliated Mining, Inc. has fulfilled obligations under the Utah Mined Land Reclamation Act of 1975 (Section 40-8, UCA 1953, as amended), and will employ the following mining and reclamation practices on approximately six acres of patented or fee land owned by North Lily Mining Company.

**During Operations:**

1. Affiliated Mining, Inc. will extract silver and gold from old tailings and mine dumps on company property by crushing, screening, flotation and cyanidation.
2. A horizontal belt filter system for dewatering and washing the leached tailings will be used. Neutralization and detoxification of tailings using this method will eliminate the need for tailings impoundments.
3. Vertical profiles of existing piles will be reduced and the creation of a broad, flat, reprocessed tailings pile will fill in the cover hazardous portions of an old, abandoned mill site.
4. Reprocessed tails will be smoothed, topsoiled and revegetated as they become available during operations.
5. Estimated duration of operations is 18 to 22 months.

**After Operations:**

1. All structures and foundations installed for this operation will be removed and the areas will be regraded, topsoiled and revegetated to achieve approximate original topography and vegetative habitat.
2. All reclamation will be completed within one year or completion of milling activities.
3. Revegetation will be visually evaluated regularly and soil samples taken yearly. If poor results are obtained, a consultant will be retained to restore the land to State standard.

Reclamation performance surety acceptable to the Board of Oil, Gas and Mining will be established prior to issuing final approval of the mining and reclamation plan.

Any person who submits written protest within 30 days of the date of the Board of Oil, Gas and Mining, 400 South Main Street, Salt Lake City, Utah, 84114, to the above described plan, setting forth factual reasons for their protest, shall be given a time and place to be established by the Board of Oil, Gas and Mining to show cause why this plan should not be approved.

Witness my hand and seal this 13th day of September, 1984.

STATE OF UTAH  
BOARD OF OIL, GAS AND MINING
